### Marie Curie (1867-1934)

Marie was a brilliant scientist and a free thinker. In 1903, she was the first woman to receive a Nobel Prize for her joint research on radiation, and in 1911, she received a second Nobel Prize for her discovery of radium and polonium. During WWI, she saw the need of xrays for battle field surgeons. She did a quick study of anatomy and auto mechanics to set up Frances first radiology units and mobile radiology units. This work saved many lives and limbs during the war.

### “The Time has Come” the Walrus said to “Talk of Many Things”

The thing most on my mind is breaking bread with fellow Humanists at our monthly potlucks.

The powers that be assure us that, once vaccinated, we are free to mingle, especially outdoors.

Calling All Veterans and New Hosts!

If you might host a potluck, even once a year, please contact Sena at 408-739-5638 or senahav@gmail.com.

Happy  
 4th of  
 July

### Ray Sundby

Ray Sundby is the new president of the Board of the Humanist Community. Ray has been a valuable member of the board since 2019. In 2020, he gave a fascinating Forum called “Five Years on Ice,” about his 5 years with the U.S. Antarctica program. Ray is an engineer with a love of nature and commitment to social issues. His guidance will be a boon to the Humanist Community.

### Online Forums

Due to COVID 19 our forums are online with Zoom.
